Meanwhile, Anjali, now separated from her husband Sid, reflects on her own emotional turmoil and the sense of isolation that accompanies her daily routine. Critical Thinking

Key Point: The interconnection between past trauma and present challenges is a central theme.

Critical Interpretation: The narrative suggests that the traumatic encounter with the Ouija board in their youth continues to haunt these women into adulthood, shaping their current struggles and relationships. It raises the question of whether the past truly dictates the future or if it can be reconciled with personal growth. Critics like Judith Herman in 'Trauma and Recovery' emphasize that individuals must confront their past to heal, indicating that while the author illustrates a strong connection, readers should remain skeptical of the determinism implied—that unresolved pasts always produce negative present outcomes.

Riya, grappling with her past and the recent death of her mother, feels an unexpected spark of hope when her tweet garners attention. Having sacrificed her London dreams to care for her family, she finally yearns to reclaim her happiness. However, old wounds resurface when she discovers that someone has hacked her laptop and accessed her unfinished story, including a mention of "That Night," a haunting memory linked to their college days.

Meanwhile, Riya's nostalgia leads her to reflect on happier times with her friends, particularly during their winter in Kurukshetra. As she remembers their bond in the hostel, she realizes her connection to the past is not fully severed. Riya's curiosity heightens when she sees a photo on her laptop that she never uploaded, igniting her anxiety about who might be watching.

Simultaneously, Natasha is struggling with her own demons in her current life. She is busy dropping her children off at school and managing her demanding job, all while feeling the weight of her unresolved feelings towards the incident that transpired years ago. A new WhatsApp group titled "The Ouija Group" emerges, reigniting the unresolved tension among the friends about what happened that fateful night. Natasha's attempt to bridge the gap among them is met with resistance, especially from Katherine, who remains

adamantly against discussing the incident. As tensions bubble, Katherine's impulsiveness leads her to confront her fears about past events—the very night they played Ouija, which had catastrophic consequences, is brought back into focus. She also experiences a surreal moment of coincidence when her daughter plays Ouija, intertwining the theme of the supernatural with their current predicament.

Anjali, the most distant from the group now, discovers that her phone has been hacked too, and she's plagued with guilt tied to a former classmate, Sania, whose untimely death haunts them all. The hacker's malicious acts feel too personal, threatening to expose their shared secrets and buried guilt.

The chapter closes as each character grapples with their haunting pasts, the fear of exposure from the hacker, and the resurgence of their once-unbreakable friendship amidst chaos. Themes of guilt, unresolved trauma, and the struggle for redemption underscore the narrative, hinting at the need for closure that remains elusive for all of them.

Critical Thinking

Key Point: The theme of unresolved trauma speaks to the broader implications of emotional scars and accountability.

Critical Interpretation: In Chapter 2 of 'That Night,' Nidhi Upadhyay intricately weaves the theme of unresolved trauma among the characters, exploring how their past experiences fracture their present lives. Through Riya's nostalgic reflections and Natasha's guilt, the narrative suggests the profound impact past events can have on personal relationships and individual psychological states. This aspect encourages readers to reflect deeper on how societal expectations and personal choices intertwine to shape identity and friendship. However, one could argue that the author's portrayal of trauma may oversimplify complex emotional responses, as it primarily focuses on guilt and the quest for closure, while ignoring the multitude of ways people cope with their pasts. Sources such as Judith Herman's *Trauma and Recovery* offer a broader perspective on how trauma manifests differently in individuals, highlighting that the struggle for redemption depicted might not represent everyone's lived experience with trauma.
